### \*Vampire\*

Dr. Avery over the intercom: "Subject H-258 has disappeared. We are going into a immediate lock down. No leaves or enters the building. All doctors please leave your assigned test subjects."

All the windows and doors and every corridor had massive amounts of silver racked down from the ceiling locking into the floor. I can't believe that a doctor let a vampire escape. A VAMPIRE. Who does that? When Dr. Avery discovers who allowed this to happen, he will eliminate them. I can hear the shuffles of the rest of the doctors above me. It's gonna take hours, maybe days to find Subject H-258.

Every floor has at least 500 test subjects. Each floor is a letter. 1st floor "A", 26th floor "Z". Now to find 1 test subject out of over 13,000! And now I'm probably gonna get eliminated by Dr. Avery.
